

My name is Akashdeep Singh and I am a student of MS in Data Science.

I am currently working on my thesis proposal. In my thesis, I would like to explore Improvement in process optimization through application of data analytics: A case of Amazon. As this topic falls within your field of expertise, I was wondering if you'd be willing to supervise my thesis.

I attached my draft thesis proposal to this email. Please let me know if you have any questions about the topic or process.

I am looking forward to hearing from you.
